STUDY SESSION ON THE GENERAL PLAN UPDATE

DIRECTOR SIMPSON Director Simpson introduced the presentation, provided an overview of the process, and reviewed the various General Plan elements that will be updated. She noted that no decision would be made at tonight’s meeting, nor would the agencies vote on any items. She noted new legislative actions that impact the 6th cycle of the General Plan update, called the Environmental Justice Element. She then introduced Sylvia Palimera and Shannon Wages with Environmental Science Associates (“ESA”).

SYLVIA PALIMERA Sylvia Palimera, an Urban Planner and Project Manager with ESA, made a PowerPoint presentation and introduced Matt Fairis with BAE, Jennifer Davis with ESA, Shannon Wages, Ruta Thomas, and Matt Kowta with Bay Area Economics, and James Rojas with Placeit! She then discussed the topics on the agenda, which include an overview of the current General Plan and an overview of the process, the General Plan elements that are being updated, community engagement to date, and requested input from the City Council and the Planning Commission. She then provided the definition of environmental justice under the CA Government Code, explained why the housing and environmental elements are being updated, and discussed the General Plan Update process.

MATT KOWTA Matt Kowta provided an overview of the housing element components and key housing element objectives, and described Regional Housing Needs Allocation (“RHNA”) for Irwindale.
Sylvia Palimera further discussed the safety element update and planning process.

Shannon Wages defined and discussed the environmental justice element, as well as its importance. She noted that Irwindale has improved its air quality from previous testing and discussed the six "pillars" of environmental justice: "pollution and air quality, public facilities, food access, safe and sanitary homes and neighborhoods, health and physical activity, and community engagement". She further discussed community engagement efforts to date as well as next steps and the roles and responsibilities of the members of the Planning Commission and the City Council.

Discussion was held relating to: 1) exploration and identification of sites to be used to facilitate RHNA, 2) the identification of residentially zoned vacant and potentially non-vacant land to accommodate RHNA, 3) potentially identify land at underutilized sites to accommodate multi-family housing units, such as apartments or town homes, 4) how rezoning specific areas may be a useful tool and the process that would be taken in order to do so, 5) the preliminary search did not identify any vacant sites, and any underutilized sites were not in housing zones, 6) the city's 10-acre property, 7) the potential of Accessory Dwelling Units to be counted toward meeting the city's RHNA requirements, 8) the option to identify sites to be earmarked for households of varying income levels, 9) Fair Housing requires that low income households not be over concentrated in one location, 10) potentially constructing housing near the Gold Line station, 11) potentially developing a grocery store or market in an attempt to mitigate environmental concerns, 12) researching ways to increase food access parity, 13) access to transportation resources, 14) varying strategies, including utilizing overlays, to help address air quality concerns, 15) community outreach efforts to gauge the public's preferences and interests, 16) the need to focus "green improvements" on streets that are heavily impacted by trucks, 17) the consultants will also observe best practices from other cities to present their methods as options to the City Council, 18) the need for the Council to memorialize its intent to develop some or all of the 10-acre site for housing, 19) the environmental justice element is a policy document that will guide future developments and amendments to the General Plan, 20) the environmental justice element can help prevent harm in the community and direct land use, 21) the state is not requiring the City to build anything; rather, it requires the city to enable the development in order to meet RHNA requirements, 22) sites could be zoned for mixed income housing or a combination of single and multi-family, 23) the types and amounts of resources needed to accommodate potentially hundreds of new residents, which would be addressed in part through the environmental review process, 24) the need to prepare a fiscal impact analysis to determine the full financial impact of the project as well as any new revenue streams, 25) past opinions regarding high-density housing developments in Irwindale
have not been favorable, 26) the need to establish access to education, exercise, and other amenities in order to promote a positive life outcome for all residents, 27) staff does not currently know what the state will require in its next housing element planning period, 28) incentives available to achieve the desired mix of housing types, 29) the state’s/SCAG’s formulas and methodologies used in determining each agency’s RHNA numbers, 30) the process to be undertaken to have the housing element certified as well as the ramifications if the housing element is not certified by the deadline, and 31) specific planning steps need to be undertaken in order to zone the section of the 10-acre property to be used for housing.

FRED BARBOSA
Fred Barbosa asked whether underdeveloped land would be acquired by the city through eminent domain.

MAYOR PRO TEM AMBRIZ
Mayor Pro Tem Ambriz requested that an additional workshop be presented to residents, to which Mrs. Wages indicated that additional information would be presented at the next workshop, to be held in June. She added that additional comments from the public should be forwarded to Director Simpson.

VICE CHAIR BURROLA
Responding to a question by Vice Chair Burrola, Director Simpson advised that any inconsistencies in the general plan would be addressed as they come up. She added that all the information would be uploaded to the dedicated webpage for the general plan update.

MAYOR BURROLA
Mayor Burrola stated that air pollution is a great concern of his, and requested that the housing element address this concern as well as the potential of developing a market or grocery store. He also stressed the need for the community to provide input and for the Council to decide what should be developed at the 10-acre site.

COUNCILMEMBER GARCIA
Councilmember Garcia mentioned the possibility of creating an overlay zone or a "green zone" near the civic center to help curb air pollution concerns.

CARMEN ROMAN
Carmen Roman requested that all residents be notified of future workshops, and suggested developing 200 homes at the 10-acre site. She also stated her belief that young families do not care for large yards, and as such, they would prefer brownstones or townhomes to be mixed in with single-family homes. She then complained about the state’s 45-year covenant on certain housing programs, agreed that an increase in the number of residents would require additional resources, and questioned the city’s median income levels.

ROBERT DIAZ
Robert Diaz suggested zoning and developing more commercial units along the freeway in order to produce more revenue. He also mentioned that he believes that most residents on Morada Street prefer that the land to the west of Breeder’s Choice be zoned for residential use, since the residents do not want the site to be used for
commercial purposes. He also suggested that landscape buffers be used between manufacturing and residential sites. He then asked if the city would consider adopting recommendations made previously by the state Air Resources Board relating to the proximity of big box retail facilities to residential areas. Finally, he asked whether RHNA requirements would be met if the city contributes funding to housing projects from other cities.

Matt Kowta

Responding to a question by Robert Diaz, Mr. Kowta stated his belief that it may be possible to conduct city-to-city transfers, though it would probably be a very difficult and complicated transaction. He also noted that it would probably be further complicated at this point since most jurisdictions have advanced far in their processes.

Mayor Burrola

Replying to a question by Mayor Burrola, Mrs. Wages stated that rezoning sites would require amendments to the land use element and the zoning code. She noted that her firm will be conducting a consistency analysis along with other elements so that land use amendments in the general plan and the zoning map could be amended.

Commissioner Fuentes

Commissioner Fuentes asked about subsidies for housing developments, to which Mr. Kowta spoke on funding mechanisms that would assist in the development of the units, such as the low-income housing tax credit program. He noted that housing developers could also secure subsidy monies necessary to create affordable housing, along with various other state and federal funding programs.

Shannon Wages

Mrs. Wages added that higher density projects are necessary to incentivize developers to create more affordable units.

Vice Chair Burrola

Vice Chair Burrola suggested reviewing the community development element in an effort to determine how to sustain an increase in population as well as the possible creation of a regional commercial center.

NEW BUSINESS

ITEM NO. 2A PARKING LOTS LOCATED AT 5223 AND 5239 MORADA STREET
Chief Henshaw discussed the staff report.

CITY ATTORNEY GUERRA
City Attorney Guerra added that one of the subject properties is owned by the City while the other is owned by the Housing Authority. He explained that the city, the Housing Authority, and Panattoni had agreed for Panattoni to develop the sites for parking. He added that the city appears to have the authority to limit parking to residents in a certain area, as cities have authority to establish preferential parking areas and may regulate parking on any off-street facility such as this one. However, consideration must also be given on how this would
be implemented; staff would need to determine how to develop the restriction, how to enforce it, costs involved, etc.

COUNCILMEMBER ORTIZ
Councilmember Ortiz thanked staff for the report. He spoke in favor of minimal interaction by city personnel and offering parking permits to the families of Morada Street residents who visit overnight. He suggested that the city only become involved if parking complaints are received.

MAYOR BURROLA
Replying to a question by Mayor Burrola, Chief Henshaw advised that the parking lots would not be gated. City Manager Miranda added that the fencing will come down once signage is installed.

CHIEF HENSHAW
Chief Henshaw advised that the posted signs would also include information on Municipal Code requirements.

MAYOR BURROLA
Mayor Burrola asked about parking spaces for the disabled, to which Chief Henshaw advised that these spaces are already available. He added that the city does not currently have an ordinance addressing oversize vehicles, though this would need to be defined and included in the Municipal Code.

DISCUSSION HELD
Discussion was held relating to the total amount of parking spaces available at the site.

TONY NARANJO
Tony Naranjo asked about overnight parking availability, the amount of parking spaces available, and enforcement concerns. He suggested that the parking lots be reverted to overflow parking for church functions. He questioned whether the sites are properly zoned for parking and complained that the area is not regularly patrolled by police. He also stated that the site has lots of weeds and wondered who will clean it and worried that a dark parking lot would invite the criminal element to the area.

MAYOR PRO TEM AMBRIZ
Mayor Pro Tem Ambriz agreed with staff’s recommendation as delineated in the staff report. He also requested parking enforcement regarding inoperable vehicles being left on the street, and asked about zoning for the site, to which Director Simpson indicated that she would look into the query and follow up with additional information and will ask Code Enforcement to look into code violations.

CITY MANAGER MIRANDA
As requested by City Manager Miranda, Chief Henshaw agreed for the Police Department to have more of a presence on Morada Street.

MOTION
A motion was made by Mayor Pro Tem Ambriz, seconded by Councilmember Ortiz, to pursue general parking guidelines for Morada Street, enforce a 72-hour parking restriction per the Municipal Code, post applicable signage, and research restricting oversize vehicles via an ordinance. The motion was unanimously approved.
PUBLIC HEARINGS
None.

From: Julian A. Miranda, City Manager/Executive Director
Issue: Claim: Fred & Rebecca Barbosa vs. City of Irwindale/Irwindale Housing Authority

City Manager’s/Executive Director’s Recommendation:

Direct staff to return the claim due to its untimely filing on behalf of the City and Housing Authority.

Administrative Action:

Submitted / Prepared by:
Laura Nieto, Chief Deputy City Clerk

Reviewed by:
Adrian R. Guerra, City Attorney/Authority Counsel
Kambiz Borhani, Finance Director / City Treasurer

Approved by:
Julian A. Miranda, City Manager/Executive Director

Background and Analysis:

On April 14, 2022, the City and Housing Authority received a claim for damages from claimants Fred and Rebecca Barbosa. The Claimants allege that the City and Housing Authority are responsible for damages to their home and finances related to work performed and inspected between 2004 and 2019. The Claimants further allege that the City and Housing Authority are liable because of the negligence of the Building Inspector, who approved the work that had been done on their home.
The claim was reviewed by the City's claims adjuster, Carl Warren & Co., who has determined that the claim has not been timely filed (outside of one year). Accordingly, it is recommended that the City Council/Board of Commissioners direct staff to return the claim to the claimants due to its untimely filing. Alternatively, the City Council/Board may direct the City Manager/Executive Director to negotiate resolution of the claim.

We were forced to basically apply for a high interest loan for the debt incurred because the City would not subordinate funds enough to help us, and we are still paying the loan today.
Responsibility Question:

The resident rehabilitation program under the housing authority failed to put the contractors on the list they provided to each resident. This was in addition to the extreme negligence by the city inspector. These actions placed a costly burden on us financially and emotionally. Please note that we are not holding the city responsible for foundation damage to our home, caused by the shops' foot work performed on the Manning Pit project. Although we did notify the city. A technician working on the Manning Pit while also working for the city, came to inspect our home. Issue: November 8, 2022 General Municipal Election – Adoption of Resolution

City Manager’s Recommendation:

Adopt RESOLUTION NO. 2022-52-3302 entitled, "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF IRWINDALE, CALIFORNIA, (1) CALLING FOR AND GIVING NOTICE OF A GENERAL MUNICIPAL ELECTION TO BE HELD ON TUESDAY, NOVEMBER 8, 2022, FOR THE ELECTION OF CERTAIN OFFICERS AS REQUIRED BY THE PROVISIONS OF THE CHARTER; (2) REQUESTING CONSOLIDATION OF SUCH ELECTION WITH THE COUNTY OF LOS ANGELES WITH ANY AND ALL ELECTIONS HELD ON SUCH DATE; (3) REQUESTING THE COUNTY OF LOS ANGELES TO PROVIDE SPECIFIC ELECTION ADMINISTRATION SERVICES FOR SUCH ELECTION; (4) ADOPTING REGULATIONS FOR CANDIDATES FOR ELECTIVE OFFICE FOR SUCH ELECTION REGARDING CANDIDATE STATEMENTS; AND (5) PROVIDING FOR THE DETERMINATION OF TIE VOTES BY LOT UNLESS THE CITY COUNCIL ADOPTS THE PROVISIONS OF ELECTIONS CODE SECTION 15651 (b) PRIOR TO THE CONDUCT OF THE ELECTION RESULTING IN THE TIE VOTE" reading by title only and waiving further reading thereof.

Approved by:
Julian A. Miranda, City Manager / City Clerk
Background and Analysis:

On March 8, 2017, the City Council adopted Ordinance No. 711 thereby changing the City’s General Municipal Election date from November of odd numbered years as a stand-alone (City-conducted) election to November of even numbered years as a consolidated (County-conducted) election. As a routine matter, prior to all General Municipal Elections, certain actions must be taken to begin the process for a city to conduct an election.

The City Council has previously adopted multiple resolutions related to the conduct of the General Municipal Election. In an effort to streamline the amount of paperwork to be transmitted to the County, Resolution No. 2022-52-3302 requests the following actions:

1) Calling for and giving notice of a General Municipal Election to be held on Tuesday, November 8, 2022;
2) Requests consolidation of such election with the County of Los Angeles with any and all elections held on such date, as well as City reimbursement to the County for costs incurred by reason of this consolidation;
3) Requests the County of Los Angeles to provide specific election administration services for such election, including canvassing the returns;
4) Adopts regulations for candidates for elective office for such election regarding candidate statements;
5) Provides for the determination of tie votes by lot unless the City Council adopts provisions of Elections Code Section 15651(b) prior to the conduct of the election resulting in a tie vote.

Fiscal Impact:

Funds have been included in the FY 2022-23 budget for the costs associated with the November 8, 2022 election.

Background and Analysis:

In 2017, Senate Bill 1 (SB1) established a Road Maintenance and Rehabilitation Account (RMRA) to address basic road maintenance and rehabilitation of state highways and local streets and roads. Pursuant to Section 2032 of the Streets and Highways Code, a percentage of the funding from the new Road Maintenance and Rehabilitation Account will be allocated to eligible cities and counties for basic road maintenance, rehabilitation, and critical safety projects on local streets and roads.

Each city or county must submit a project list to the California Transportation Commission (CTC), pursuant to an adopted resolution, on an annual basis. SB1 also establishes annual reporting and audit requirements for RMRA expenditures.

The estimated amount of RMRA funds allocated for our city is $32,847 for FY 2022/2023. The eligible uses of SB1 RMRA funds include road maintenance and rehabilitation, safety projects, bicycle and pedestrian improvements, and traffic control devices.

The proposed project for the FY 2022/2023 RMRA funds is the 2022/2023 Resurfacing Program which consists of cold-milling, removal and re-paving existing asphalt pavement on Baca Avenue, Calle Burrola, Sabre Lane, Calle Del Sur, Calle Breceda, Martinez Street, Nora Avenue and Fraijo Avenue. The useful life of these improvements is estimated to be 10 to 15 years.

Upon approval by the City Council, the project description and a copy of the adopted Resolution No. 2022-44-3294 will be submitted to the California Transportation Commission as required, in order to be eligible to receive SB1 RMRA funding for FY22/23.

Fiscal Impact:

The City of Irwindale will be eligible to receive an estimated amount of $32,847 for the 2022/2023 Resurfacing Program with the adoption of the attached resolution. RMRA funds are recorded in the State Gas Tax Fund 21.

From: Julian Miranda, City Manager
Issue: Irwindale Business Center Sewer and Street Light Maintenance Assessment Districts Engineer’s Report and Notice of Intent to Levy

City Manager/Executive Director’s Recommendation:

That the City Council:

3) Set the Public Hearing for June 22, 2022 to consider setting assessments for the two above-mentioned Assessment Districts.
On or about June 23, 2001, in the Fiscal Year 2001-2002, the City Council of the City of Irwindale ("City Council") adopted the Sewer Maintenance District (Irwindale Business Center) and established a sewer maintenance charge for the Sewer Maintenance District for the manner of levying such charge and maximum amounts to be charged for the fiscal year pursuant to the Improvement Act of 1911 (Streets & Highways Code § 5000 et seq.) ("Act").

Furthermore, in Fiscal Year 2001-2002, the City of Irwindale ("City") formed the Street Lighting Maintenance District (Irwindale Business Center) Resolution Number 2001-42-1762, to generate revenue and finance the cost of providing maintenance for the existing public street lighting system within the Irwindale Business Center. The Irwindale Business Center is a 116-acre private industrial development and the improvements to be maintained within the Street Lighting Maintenance District are appurtenant thereto within and benefiting all assessable parcels of land within the Street Lighting Maintenance District.

In order to maintain the Sewer Assessment District and the Street Lighting Assessment District (each referred to as "Assessment District" and collectively referred to as "Assessment Districts"), both located within the Irwindale Business Center, and to establish the charge rate for the Fiscal Year 2022-2023
assessments, the City retained a professional engineering consulting firm for the preparation of the Engineer's Report for each Assessment District. The Engineer's Report for the Irwindale Business Center Sanitation and Sewage System is prepared in accordance with the methodology stated in Section 5473 of the Health and Safety Code. The Engineer's Report for the Irwindale Business Center Street Lighting Maintenance District is prepared in accordance with the methodology stated in Article 4, Chapter 1, Part 2, Division 15 of the Streets and Highways Code, beginning with section 22565 et seq.

The proposed assessments will defray the City's costs in the administration of the Assessment Districts. The property owners will have an opportunity to address the City Council concerning the Assessment Districts during the public hearing scheduled to be held during the virtual City Council Meeting on June 22, 2022. Following the completion of the public hearing, the City Council will vote on the property assessments for the street lighting and sewer maintenance charges for fiscal year 2022-2023 and instruct the County Assessor's office for the collection through tax bills.

1) Copies of the two draft Engineer's Reports are included with the Resolution for each Assessment District.

   a. The Sewer Maintenance District anticipated assessment levy is $1,447.76 per Benefit Unit for FY 2022/2023, which is based on the estimated cost of operations, maintenance, and future lift station replacement for that year.

   b. The Street Lighting Maintenance District assessment to be levied is based upon each parcel within the boundaries of the District and the assessment was based solely on the benefit received from the street light maintenance. The assessment per Benefit Unit is $139.09.

Fiscal Impact:
All costs for the maintenance and administration of the two Assessment Districts are budgeted and accounted for in the City's Irwindale Business Center Assessment District Funds 44 and 45. There is no impact to General Fund expenditures, and there is nominal revenue reimbursed to the General Fund as administrative overhead for staff time allocated to the two assessment districts.

**Revenues**
1. The amount of any surplus or deficit in the improvement fund to be carried over from a previous Fiscal Year.
2. The net amount to be assessed upon assessable lands within the District being the total operation, maintenance, and servicing costs. Actual levy to the County of Los Angeles will vary slightly due to rounding.

**Expenditures**
3. The total costs for improvements to be made for the year, being the total costs of operation, maintenance, and servicing all existing improvements, including all incidental expenses.
4. The expenditures may include a reserve that shall not exceed the estimated costs of maintenance and servicing to December 10 when the City expects to receive its apportionment of assessments from the Los Angeles County. For this Fiscal Year the reserve is not part of the assessment since the fund balance is enough to cover those costs.
V. Method of Apportionment of Assessment

A) General

Part 2 of Division 15 of the Streets and Highways Code, the Landscaping and Lighting Act of 1972, permits the establishment of assessment districts by cities for the purpose of providing certain public improvements which include operation, maintenance, rehabilitation, and servicing of street lights.

The 1972 Act requires that maintenance assessments be levied according to benefit rather than according to assessed value. Section 22573 provides that:

"The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements."

In addition, Article XlllD requires that a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred on that parcel. Article XlllD provides that only special benefits are assessable and the City must separate the general benefits from the special benefits.

B) Proposition 218 Benefit Analysis

In conjunction with the provisions of the 1972 Act, Article XlllD addresses several key criteria for the levy of assessments, notably:

Article XlllD Section 2(d) defines District as follows:

"District means an area determined by an agency to contain all parcels which will receive a special benefit from a proposed public improvement or property-related service";

Article XlllD Section 2(i) defines Special benefit as follows:

"Special benefit" means a particular and distinct benefit over and above general benefits conferred on real property located in the district or to the public at large. General enhancement of property value does not constitute “special benefit.”

Article XlllD Section 4(a) defines proportional special benefit assessments as follows:

"An agency which proposes to levy an assessment shall identify all parcels which will have a special benefit conferred upon them and upon which an assessment will be imposed. The proportionate special benefit derived by each identified parcel shall be determined in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement,
or the cost of the property related service being provided. No assessment shall be imposed on any parcel which exceeds the reasonable cost of the proportional special benefit conferred on that parcel.”

This District was formed to establish and provide for the improvements that enhance the presentation of the surrounding properties and developments. These improvements will directly benefit the parcels to be assessed within the District. The assessments and method of apportionment is based on the premise that the assessments will be used to construct and install landscape and lighting improvements within the existing District as well as provide for the annual maintenance of those improvements, and the assessment revenues generated by District will be used solely for such purposes.

The costs of the proposed improvements have been identified and allocated to properties within the District based on special benefit. The improvements to be provided by this District and for which properties will be assessed have been identified as an essential component and local amenity that provides a direct reflection and extension of the properties within the District which the property owners and residents have expressed a high level of support.

The method of apportionment (method of assessment) set forth in the Report is based on the premise that each assessed property receives special benefits from the landscape and lighting improvements within the District, and the assessment obligation for each parcel reflects that parcel's proportional special benefits as compared to other properties that receive special benefits.

To identify and determine the proportional special benefit to each parcel within the District, it is necessary to consider the entire scope of the improvements provided as well as the properties that benefit from those improvements. The improvements and the associated costs described in this Report, have been carefully reviewed and have been identified and allocated based on a benefit rationale and calculations that proportionally allocate the net cost of only those improvements determined to be of special benefit to properties within the District. The various public improvements and the associated costs have been identified as either “general benefit” (not assessed) or “special benefit”.

C) Apportionment by Parcel Size

Acreage has been selected as the principal unit for calculating the special benefit conferred upon the parcels by the street lighting improvements and for apportioning the total assessment. The special benefit will be expressed as Benefit Unit (BU). Every parcel will be assigned one benefit unit (1.0 BU) per acre.

- **All developed and undeveloped parcels.** All parcels will be assessed one (1) benefit unit per acre.

- **Exempt.** Exempt from the assessment would be the areas of public streets, public easements and rights-of-ways. Also exempt from assessment would be utility rights-of-way, common areas, and sliver parcels not developable, as these parcels do not benefit from the improvements. The storm water detention basin on parcel 8417-027-094, which became 8417-027-908 and the utility easement to Valley County Water District on parcel 8417-035-900 do not benefit from the lighting system and are exempt from the lighting assessment.

Southern California Edison has purchased parcel 8417-036-002, which became 8417-036-800. This parcel is not exempt from the lighting assessment and is assessed as State Board of Equalization (“SBE”) parcel 9014-800-001.

The sewer lift station located on parcel 8417-036-900 benefits; therefore, it is not exempt and is included in the lighting assessment.

A summary of Benefit Unit (BU) rates is shown in the table below:

</tr>
</tbody>
</table>

D) Special Benefit Determination

**Street Lighting:** Proper maintenance and operation of the street lighting system benefits all properties by enhancing overall safety, mitigating crime, alleviating the fear of crime, and promoting business and industry.

Street lighting provides special and direct benefit to all properties within the District as these lighting benefits are directly related to the positive enhancement of the area and therefore increase property desirability.
E) Assessment Rate Calculation

The Maximum Allowable Assessment rate for Fiscal Year 2022/2023 is $169.83. This rate is calculated by adjusting the maximum rate established for Fiscal Year 2001/2002 of $97.29 per Benefit Unit by the Consumer Price Index ("CPI") for All Items, All Urban Consumers for the Los Angeles-Long Beach-Anaheim Area. The maximum rate reflects the April 2021 to April 2022 CPI increase of 7.87% over the maximum rate of $157.44 for Fiscal Year 2021/2022.

As shown in the budget in section IV, the assessment rate for Fiscal Year 2022/2023 is $139.09 per BU.

Each year, as the City maintains the existing street lighting improvements, the rate per BU will be calculated according to the current year's operations and maintenance budget.

I. Introduction

To establish a revenue source based on benefit to property for funding the maintenance of public sewer facilities in the 116-acre private development, Irwindale Business Center, the City Council directed the City Engineer to facilitate the formation of the Sewer Maintenance Charge (Irwindale Business Center) (the "District") under the Health and Safety Code ("H&SC"), Sections 5470 et. seq., entitled "Sanitation and Sewerage Systems" which provides a method for collecting funds for the maintenance of sewer facilities on the property tax bills. The funding supported the maintenance of a sewer system and a lift station and the future replacement of the lift station (estimated for the year 2026) in the area known as the Irwindale Business Center.

In Fiscal Year 2001/2002, the City Council of the City of Irwindale (the "City") established the Sewer Maintenance Charge (Irwindale Business Center). The noticing and balloting requirements and other applicable provisions of Article XIIID of the California State Constitution were followed with respect to the formation of the Sewer Charge. It was determined that the sewer maintenance charge was a property-related charge and should be levied upon each parcel within the boundaries of the Irwindale Business Center. A maximum charge rate of $829.38 per benefit unit ("BU") was established for Fiscal Year 2001/2002.

The rate imposed each year will be based on the estimated cost of operations, maintenance, and future lift station replacement for that year. For any year in which all other rates imposed under the Sewer Charge are adjusted by the change in the Consumer Price Index ("CPI"), the maximum rate will also be adjusted by the CPI.

Section 5473 of the H&SC requires this Engineer's Report ("Report") to be prepared and filed with the City Clerk each year for the purpose of establishing the charge rate. The charge rate for Fiscal Year 2022/2023 is presented herein in accordance with the methodology as set forth below.

Following approval of this Report, the City Council will hold a public hearing to provide an opportunity for any interested person to be heard. At the conclusion of the public hearing, the City Council may adopt a resolution confirming the levy of the charge as proposed or as modified.

II. Description of the Improvements

The City's existing sewer system facilities in the Irwindale Business Center include approximately 7,500 L.F. of 8" to 12" VCP gravity public sewer main and a sewer lift station, (3'-6" X 14", 1400 GPM, 75 HP dry well pumps and a 12,000 gallon wet well) built to capacity for the project.
III. Estimate of Cost

The cost of operation, maintenance, servicing of the improvements and the replacement of the lift station for Fiscal Year 2022/2023, as described above, are summarized herein and described as below.

(1) Annual cost for the replacement of the lift station at the end of its useful life estimated to occur in the year 2016. This cost was estimated to be $750,000 in 2000. Due to increased equipment, material, and labor costs in 2007 the Los Angeles County Maintenance Division recommended a 30% increase to this estimate to a cost of replacement of $975,000. In addition, in 2014 the Los Angeles County Maintenance Division recommended construction of a bypass system to allow for continuous operation while routine maintenance continues to be performed on the gravity sewer main. Furthermore, the replacement of the station sewer piping shall use stainless steel pipes instead of ductile iron pipes. This increased the cost from $975,000 to $1,325,000. The replacement of the gravity sewer main was scheduled to begin in Fiscal Year 2014/2015 and was estimated to be completed in 2-3 years. As such, the total amount to collect became $1,325,000 - $825,000 (Collected through Fiscal Year 2013/2014) = $500,000 over the next 6 years starting Fiscal Year 2014/2015. Annual charge starting Fiscal Year 2014/2015 = $500,000/6 years = $83,333.33 per year. However, the City unexpectedly did emergency repair and replacement in Fiscal Year 2014/2015, as explained below, which depleted the funds. The City will continue to collect toward the Lift Station replacement to the maximum capacity allowed in order to replenish the fund.

(2) In Fiscal Year 2014/2015, the City replaced two deteriorated 10" main sewer discharge pipes at the lift station with two 8" high-density polyethylene pipes to prevent sewer spillage and to resume normal operations of the station. These two main sewer discharge pipes extend from the lift station along Charter Street and Tapia Street and the two main lines connect to the County Sanitation District Sewer Main line on Irwindale Avenue. The fund balance in the District did not have sufficient funds to cover the entire cost of the project. The City Council approved a loan from the General Fund in the amount of $375,000 to be paid off over 5 years with interest to cover this cost. First year loan repayment to start in Fiscal Year 2015/2016 and end in Fiscal Year 2019/2020. The loan was repaid in Fiscal Year 2019/2020.

(3) The net amount to be assessed upon assessable lands within the District being the total operating, maintaining, and servicing costs. Actual levy to the Los Angeles County will vary due to rounding.
IV. Method of Apportionment and Rate Calculator

The land use for all of the parcels within the boundaries of the Sewer Maintenance Charge area as the area fully develops will be industrial. It has been determined that the sewer maintenance charge is a property related charge, and that a charge based on parcel acreage is a reasonable method for apportioning the maintenance costs. The special benefit will be expressed as a Benefit Unit ("BU"). For every parcel one benefit unit (1.00 BU) will be assigned per acre.

- Developed and undeveloped parcels will be assessed one (1) benefit unit per acre.
- Exempt from the assessment would be the areas of public streets, public easements and rights-of-ways. Also exempt from assessment would be utility rights-of-way, common areas, and sliver parcels not developable, as these parcels do not benefit from the improvements.

The sewer lift station located on parcel 8417-036-900, the storm water detention basin on parcel 8417-027-094 which later became parcel 8417-027-908 and the utility easement to Valley County Water District on parcel 8417-035-900 do not benefit from the sewer system, and are exempt from the maintenance charge.

Southern California Edison has purchased parcel 8417-036-002 which became 8417-036-800. This parcel is not exempt from the Sewer Maintenance Charge and is assessed as parcel 9014-800-001 (State Board of Equalization assigned parcel number or "SBE").

Background and Analysis:

On April 28, 2021, by City Council adoption of Resolution No. 2021-23-3245, the Police Department received approval for a budget transfer of COPS funds, in the amount of $146,500, to purchase and outfit two (2) police service vehicles, which includes one (1) 2022 Chevrolet Tahoe and one (1) Ford Police Utility Interceptor with emergency service equipment.

The estimated cost approved for outfitting these vehicles with emergency service equipment at the time totaled $64,700, and was based on previous outfitting costs of safety lighting equipment, radios, computers, cameras and public safety supplies.

Due to the delays caused by the COVID-19 pandemic on equipment availability, there were significant increases to equipment and outfitting costs since then. These additional increased costs totaling $92,800 will result in a shortage of funds to complete the outfitting of the two (2) police vehicles with emergency service equipment. Therefore, the Police Dept. requests the City Council’s approval for the additional cost of $28,100.

Fiscal Impact:

There will be no fiscal impact to the General Fund in approving the increased costs of $28,100, as the City of Irwindale will use Citizens Option for Public Safety (COPS) grant funds to pay the additional costs to outfit the vehicles. Sufficient funds exist in the COPS FY 2021-2022 Budget for these purchases.

Background and Analysis:

1. Sometime in FY 2022-2023, the Irwindale Community Foundation (ICF) will receive a donation of $250,000 from Huy Fong Foods, Inc. This is consistent with donations the ICF has received in prior fiscal years. In line with the ICF's mission, the ICF Board allocates donated funds for programs, services and equipment that benefit the Irwindale community, and the ICF Board typically considers City
programs and services in the areas of Recreation, Aquatics, Senior Center, and Library.

2. On May 4, 2022, the Irwindale Parks & Recreation Commission (Commission) reviewed recommendations from City Staff for the proposed use of ICF donated funding. The Commission approved the recommended requests from City Staff, which include various programs, services and equipment for the Recreation, Public Services and Aquatics Divisions, and these requests were presented to the ICF Board for their consideration.

3. On April 19, 2022, the ICF Board met and reviewed the proposed budget for FY 2022-2023. The ICF Budget included the requests for Recreation, Senior Center, Public Services, and Library as approved by the Commission. All requests are itemized in Attachment “A” of Resolution No. 2022-50-3300.

4. On May 17, 2022, after review and discussion of all requests, the ICF Board approved its FY 2022-2023 Budget, which includes a total of $36,370 in transfers to the following City departments/divisions:

<table>

</tr>
<tr>

5. It would be appropriate at this time for the City to accept the donation from the ICF, and approve the appropriation for expenditure of these funds as listed in Attachment “A” of Resolution 2022-50-3300.

**Fiscal Impact:**

Approving Resolution No. 2022-50-3300 will authorize the City to record the acceptance of the ICF donated funds of $36,370, as well as approve the appropriation of these funds into the proper expenditure budgets for Senior Center, Public Services, Library and Recreation. The appropriations will allow these department/division(s) to fund the recommended programs, services and equipment listed in Attachment “A” for benefit to the Irwindale community.

The Irwindale Educational Foundation (IEF) is hosting its fundraiser to raise funds for educational scholarships to qualified Irwindale residents and employees and family members of businesses located within the city limits that are members of good standing of Irwindale Chamber of Commerce. On May 18, 2022, the City received a request for the use of one of the billboard displays in the City during the 2021/2022 fiscal year.

The City in past years has been supportive of this charitable organization and, in fact, has approved the use of one of the Clear Channel Communications’ billboard faces for one month (estimated value of between $6,500 to $15,000 depending on the billboard) the City receives the right to use along the 210 and 605 Freeways. The IEF uses the billboard to acknowledge sponsors of the event and to market the Foundation.

The education benefits provided by IEF serves an important public purpose insofar as it helps qualified individuals attain higher education, and thus become more informed and productive members of the community and, assisting members of the Irwindale community attain greater education levels tends to increase their earning potential, creating a likely economic benefit to Irwindale businesses, and consequently City revenues.

Fiscal Impact:

There is no loss of revenues to the City since the Agreement with Clear Channel or CBS Outdoor Inc. allows for City use of the billboard for specified periods of time.

Assistant City Manager/Assistant Executive Director

Background and Analysis:

On May 25, 2022, a housing and development workshop was held at the Dan Diaz Recreation Center at the request of Mayor Pro Tem Ambriz. Notices regarding this workshop and a Housing Development Survey were mailed to all Irwindale residents on May 12, 2022 and sent to the Irwindale business community. BAE Urban Economics led the workshop and Environmental Science Associates (EAS) assisted. Workshop attendees had the opportunity to participate in person or virtually through Zoom. In person and virtual attendees were able to provide comments in person or using the app’s “chat” feature. Staff monitored the “chat” dialogue to ensure receipt of virtual attendees’ comments. Staff also secured a Spanish translator to assist at this workshop.
This workshop served several purposes; primarily, the City is currently preparing its General Plan and Housing Element for the 2021-2029 planning period. This workshop provided the community with background information regarding the City's upcoming Housing Element including new State Housing Element Law, the 2021-2029 Regional Housing Needs Assessment (RHNA) allocation for the City and the opportunity to receive community input. Additionally, the housing workshop provided an opportunity for participants to provide input on various locations throughout the City where housing may be suitable, including, but not limited to, the 10-acre site located at 5100 Allen Drive. Attendees were also able to provide input on the housing density and type of housing (i.e., single family, multi-family, town homes) they prefer.

Irwindale's SCAG 6th Cycle Final RHNA Allocation Plans is as follows:

Tonight, the City Council/Board will receive an update on the information gathered at the workshop and from the Housing and Development Survey. At the conclusion of the report, Staff will seek direction from the City Council/Board regarding the inclusion of specific sites in the Housing Element, for Staff and the consultant to complete the initial draft the Housing Element. This report will be supplemented by a PowerPoint presentation.

**Fiscal Impact:**
There is no fiscal impact.

Issue: Consideration of Approval of Amendment No. 1 to Affordable Housing Agreement, Option to Purchase and Declaration of Covenants Running with Land for 4612 Fraijo Avenue to Implement Equity Sharing Policy

City Manager's Recommendation:

1) Approve Amendment No. 1 to Affordable Housing Agreement, Option to Purchase and Declaration of Covenants Running with Land between Irwindale Housing Authority and Rudy Gallardo; and

2) Authorize the Executive Director to execute Amendment No. 1 subject to Authority Counsel approval as to form.

Prepared and Submitted by:
Robert J. Lee, Assistant Authority Counsel

Reviewed by:
Adrian Guerra, Authority Counsel

Kambiz Borhani, Finance Director / City Treasurer

Approved by:
Julian Miranda, Executive Director
Background and Analysis:

Historically, the equity sharing practices of the Irwindale Housing Authority ("Authority") provided for the Authority to retain a significant majority of the excess sale proceeds until year 40 of the 45-year affordable housing period. Accordingly, it was very difficult for affordable homeowners in the City of Irwindale to build meaningful equity in their affordable homes towards improving their financial status which is one of the paramount objectives of the Authority's affordable housing programs.

As part of the Substantial Rehabilitation Program, Rudy Gallardo ("Owner") and the former Irwindale Community Redevelopment Agency ("ICRA") entered into that certain Affordable Housing Agreement, Option to Purchase and Declaration of Covenants Running with Land dated August 11, 2005 and recorded on April 23, 2007 as document no. 20070971173 ("Agreement"), whereby ICRA provided Owner a loan for the substantial rehabilitation of Owner's property located at 4612 Fraijo Avenue in exchange for Owner's promise to maintain the property as an affordable housing unit for a period of 45 years.

Specifically, Equity Sharing permits retention by owner/seller of a portion of excess sale proceeds based on the length of occupancy, after the agency loan is repaid. The amount of the excess sale proceeds is the difference between the sale price that is in excess of what is allowable under the affordable housing agreement and the original purchase price of the home paid by the affordable homeowner. The Agreement's equity sharing provisions are triggered when there's been a "Prohibited Transfer" as defined in the Agreement; put another way, equity sharing is invoked when there's a sale of the home where the sale does not qualify as a "Permitted Transfer" under the Agreement. Permitted Transfers include but are not limited to the following:

(i) transfer by gift, devise, or inheritance to the Owner's spouse; (ii) transfer by devise or inheritance to the Owner's children; (iii) transfer of title by an Owner's death to a surviving joint tenant, tenant by entireties, or a surviving spouse of community property; and (iv) transfer of title to a spouse as part of divorce or dissolution proceedings or in conjunction with marriage.

On July 14, 2021, the Authority Board approved and adopted an equity sharing policy ("Policy") for the Authority's Substantial Rehabilitation and First Time Homebuyer affordable housing programs so that the percentage of the equity sharing appreciation amount retained by homeowners is now much larger than the amount allowed previously for those homeowners who elect to take advantage of the increased Policy benefits. The application of the Policy with regards to any homeowner who is part of the Authority's affordable housing programs requires a formal amendment to any affordable housing agreement's existing equity sharing provisions; the calculations for the new equity sharing differ under the Policy depending on whether the homeowner is under the First Time Homebuyer Program or Substantial Rehabilitation Program.

Now, Owner and the Authority (as successor to ICRA) desire to formally amend the
Agreement to incorporate the increased equity sharing benefits available to Owner under the Policy. However, it should be underscored that amending the Agreement in and of itself does not vest Owner with any equity sharing benefit conferred under the Policy other than to allow Owner to place himself in position to possibly retain a greater share of equity sharing appreciation in the event a “Prohibited Sale” should occur in the future. This Amendment No. 1 modifies the Agreement and is only a first step towards Owner availing himself of the increased benefits under the new Policy. The 45-year affordability covenant remains in place and there is no financial equity distribution at this time because there is no sale of the home.

Fiscal Impact:

Currently none, but if Owner sells the home and the equity sharing provisions are triggered, Authority will retain a smaller percentage of the equity sharing appreciation.

RECITALS

A. Owner and the former Irwindale Community Redevelopment Agency (“ICRA”) entered into that certain AFFORDABLE HOUSING AGREEMENT, OPTION TO PURCHASE AND DECLARATION OF COVENANTS RUNNING WITH LAND dated August 11, 2005 and recorded on April 23, 2007 as document no. 20070971173 (“Agreement”) whereby the ICRA agreed to provide Owner financial assistance in connection with the residential real property owned by Owner and located at 4612 Fraijo Avenue, Irwindale, California (“Property”). The Property is part of Authority’s affordable housing program commonly referred to as the Substantial Rehabilitation Program.

B. On February 1, 2012, pursuant to Assembly Bill 1x26 and Health and Safety Code Section 34170 et seq., the ICRA was effectively dissolved and the City of Irwindale (“City”) became the Successor Agency to the ICRA.

C. On January 11, 2012, the City Council of the City of Irwindale adopted Resolution No. 2012-09-2548 and elected not to retain the housing functions and assets of the ICRA, and affirmatively determined and confirmed that the Authority would retain the housing assets and functions of the ICRA.

D. On January 11, 2012, the Board of the Authority adopted Resolution No. 2012-01-034 which accepted the housing assets and functions of the dissolved ICRA. The Authority thereby
is the housing successor agency to the ICRA, vested with all of the rights, powers, duties, assets, liabilities, and obligations of the housing activities of the ICRA.

E. As housing successor to the ICRA, the Authority assumed all of the ICRA’s rights, powers, duties and obligations under the Agreement.

F. The Authority implements an affordable housing program through a Low and Moderate Income Housing Fund to assist persons and families of very low, low, and moderate income, as defined by Section 50093 of the California Health and Safety Code to rehabilitate residential property and to increase, improve and preserve very low, low and moderate-income housing available at affordable housing cost (as defined in Health and Safety Code Section 50052.5) within the territorial jurisdiction of the Authority in accordance with Housing Authorities Law (Health and Safety Code Section 34200, et seq.)

G. Pursuant to Health and Safety Code Section 33334.3 and as part of its affordable housing program, the Authority has established an equity sharing program allowing the sale of owner-occupied units prior to expiration of the 45-year affordability period established through an agreement between the Authority and affordable homeowner for a price in excess of the affordable housing price, so long as the Authority’s investment of moneys from the Low and Moderate Income Housing Fund is protected, including through implementation of a schedule of equity sharing that permits the seller and the Authority to retain a portion of the sale proceeds based on length of occupancy prior to sale.

H. Historically, the equity sharing practices of the Authority provided for the Authority to retain a significant majority of the excess sale proceeds until year 40 of the 45-year affordable housing period. Accordingly, it was very difficult for affordable homeowners in the City to build meaningful equity in their affordable homes towards improving their financial status which is one of the paramount objectives of the Authority’s affordable housing program.

I. On July 14, 2021, the Authority approved and adopted an equity sharing policy (“Policy”) for the Authority’s Substantial Rehabilitation and First Time Homebuyer affordable housing programs so that the percentage of the equity sharing appreciation amount retained by homeowners is now much larger than the amount allowed previously. The implementation of the policy requires a formal amendment to the Agreement.

J. The Parties now desire to formally amend the Agreement to incorporate the increased benefits available to Owner thereunder to be made effective retroactive to the effective date of the Agreement.

TERMS

1. Contract Changes. The Agreement is amended as provided herein (added text shown in **bold**, _italics_, _underlined_, deleted text shown in strikethrough).

A. Section 8.2, “Shared Equity Appreciation,” of the Agreement is hereby amended effective as of the effective date of the Agreement, to read in its entirety as follows:
Shared Equity Appreciation. In the event of a Prohibited Transfer during the Affordability Period, in addition to repayment of the balance of the Note Amount, Agency shall receive a share of the sales proceeds that exceed the value of the Property at the time of the Agency Loan, of the difference between the sale price that is in excess of the Affordable Housing Cost and the purchase price of the Property paid by the Owner, in order to recover funds for other low and moderate-income housing pursuant to the Housing Program and state law. The Agency’s share of the increase in equity shall be determined based on the length of time the Property has been occupied by an Eligible Person or Family prior to the Prohibited Transfer, pursuant to the table below. The Agency’s share of the equity increase will be lowered in the event the Prohibited Transfer is the result of divorce or death.

As an example only:

- Value of Property at time of loan = $150,000
- Value of Property at time of Prohibited Transfer = $250,000
- Increase in equity = $100,000
- Year of Prohibited Transfer after Loan = 20
- Amount of Equity Increase kept by Owner = (5% X $100,000) = $5,000
- Amount of Equity Increase shared with Agency = (95% X $100,000) = $95,000

More specifically, the Agency Loan will be forgiven by 1/20 on an annual basis for 20 years after which time the entire loan will be forgiven. During that 20-year period, the equity sharing ratio ("ESR") will be 10%, meaning the Agency will retain 10% of the equity sharing appreciation amount ("ESAA") and the homeowner will retain 90% of the ESAA; thereafter, until expiration of the 45-year period, the 10% ESR will decrease by 0.4% per annum. The Parties are to consult the Authority’s Equity Sharing Policy for examples of the foregoing.

2. **Continuing Effect of Agreement.** Except as amended by this Amendment No. 1, all provisions of the Agreement shall remain unchanged and in full force and effect. From and after the date of this Amendment No. 1, whenever the term “Agreement” appears in the Agreement, it shall mean the Agreement, as amended by Amendment No. 1.

3. **Counterpart Execution.** This Amendment No. 1 may be executed in any number of counterparts, each of which shall be deemed to be an original instrument and all of which together shall constitute a single agreement.

4. **Recordation.** This Amendment No. 1 shall be recorded as soon as practicable following its mutual execution by the Parties.
