

# BEVERAGE CONTAINER RECYCLING & LITTER REDUCTION

In 2014, Californians recycled more than 17.7 billion California Redemption Value (CRV) beverage containers - that's 48,493,151 per day according to the California Department of Resources, Recycling, and Recovery.

The City of Irwindale would like to thank its residents and businesses for their recycling efforts and encourage everyone to continue recycling their beverage containers and reduce litter across the City. The City is sending a reusable bag to all residents and business owners. This reusable bag was made from plastic bottles. When we recycle our plastic bottles, we are able to create new products. Plastics are also the major cause of river and ocean pollution, which impacts marine life. Please use and enjoy your reusable bag.

## IMPORTANT CONSUMER REFUND INFO

Did you know that you are allowed to get your beverage container recycling refunds on a pre-container basis instead of by weight? By law, you can bring up to 50 aluminum, 50 glass, 50 plastic, and 50 bi-metal CRV containers in a single visit and request to be paid by count. You will be paid the full CRV redemption of 5 cents or 10 cents on each container. Before handing over your load, inform the site attendant of your content and payment preference. ***Any consumer who has been denied this right by a recycling center can file a complaint by calling 1-800 RECYCLE.***

If recycling more than 50 containers of any one material type, the decision to pay by count or weight is determined by the recycling center operator. Make sure your containers are whole and free of contaminants such as dirt, excessive liquid or other foreign substances.

## RECYCLABLE BEVERAGE CONTAINERS

- Beer and other malt beverages
- Carbonated soft drinks
- Wine coolers and distilled spirit coolers
- Carbonated fruit drinks
- Coffee and tea drinks
- Carbonated water, including soda and carbonated mineral waters
- Vegetable juices in beverage containers of 16 ounces or less
- Non-carbonated waters, soft drinks, "sport" drinks, fruit drinks that contain any percentage of fruit juice (excluding 100% fruit juice in 46 oz. or larger containers)

*Disclaimer: The City of Irwindale is providing its residents and businesses with information on the closest certified recycling centers available to them and does not endorse any of the sites. It is up to the resident and business owner to conduct their own research and determine which recycling center best serves them.*

## CalRecycle Certified Recycling Centers

Each site is listed as accepting aluminum, glass, plastic, and bimetal beverage containers:

### SA Recycling LLC
